

## ○ Nugget Profiler Sensor Probes

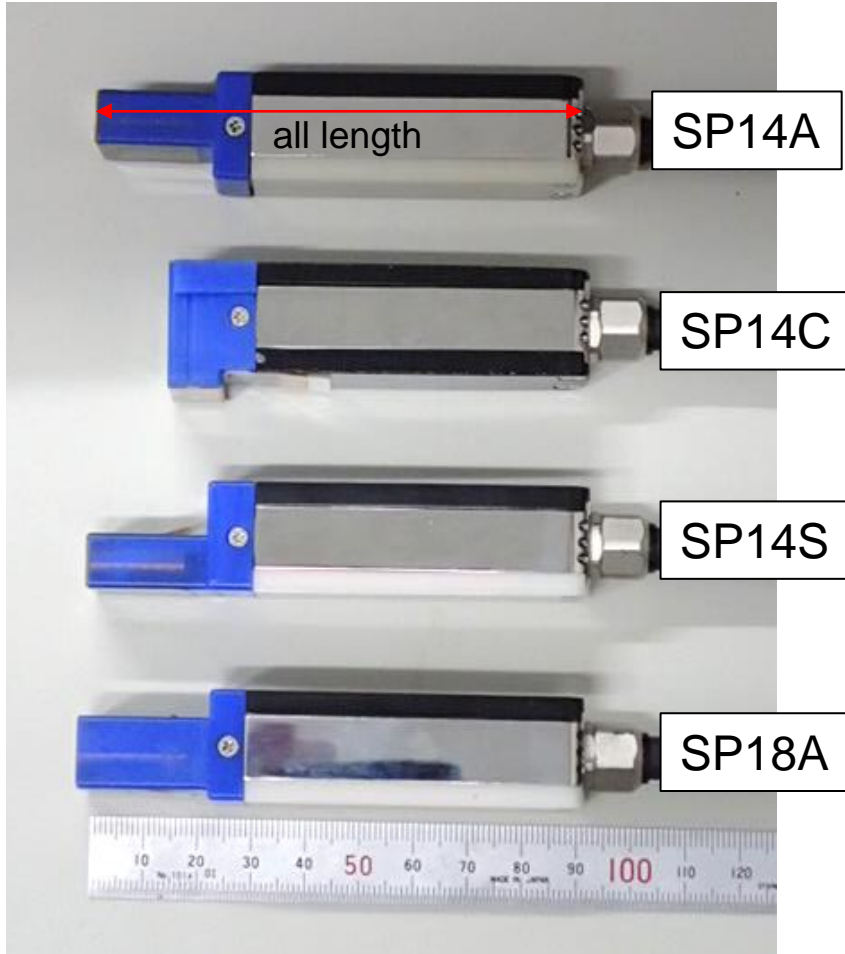

Fig 1. Appearance of sensor probe

Table 1. Sensor Probe Dimensions

| type  | Probe dimensions [mm] |       |        | Detection part dimensions [mm] |        |
|-------|-----------------------|-------|--------|--------------------------------|--------|
|       | all length            | width | height | width                          | height |
| SP14A | 90                    | 20    | 20     | 18                             | 10     |
| SP14C | 76                    | 20    | 23     | 20                             | 10     |
| SP14S | 90                    | 20    | 20     | 18                             | 10     |
| SP18A | 93                    | 22    | 20     | 22                             | 13     |

all length: Length from sensing section to SUS case

< supplement >

SP14A : Standard

SP14C : L-shape

SP14S : Sensing section offset

SP18A : For large diameter(4 to 10mm)
